¹According to Regulations (EC) No 1829/2003 and No 1830/2003 - ²Fava bean is not a major allergen according to EU Regulation 1169/2011. However, French Food Safety Agency (ANSES) recommends not to consume broad beans or fava beans in the event of Glucose-6-Phosphate dehydrogenase (G6PD) deficiency, irrespective of their preparation and consumption conditions. ³Pea is not listed among major allergens and intolerant agents in the EU (Annex II Regulation 1169/2011) neither in the Codex list of allergens to be labeled (Codex Stan 1-1985 (Rev. 1-1991)-\$4.2.1.43). Due to a few rare reported allergic reactions with pea (and their derived products), we strongly suggest to our customers to list the botanical origin of their pea-derived products in their ingredient statement.
