SAFE AND HIGH-TOLERANCE INFANT FORMULA

Key Ingredient Facts

GLUCIDEX® Premium maltodextrins

Offering safe and high-tolerance energy for the healthy growth of our babies

- High quality and food safety
- Excellent digestive tolerance
- Efficient hydration
- Non-GMO, Kosher and Halal certified

Key Benefits for an infant formula

GLUCIDEX® Premium maltodextrins

NUTRITIONAL	• Highly purified maltodextrins and dried glucose syrups • Easily digested carbohydrate (100% glucose) • High digestive tolerance: no colic fermentation. Partial replacement of lactose with maltodextrins in infant formula led to the decrease of excessive gas and crying • Efficient hydration: a full range of DE to fine-tune infant formula osmolarity, which ensures good hydration of the baby
QUALITY	• Suitable for dry-mix technology • Cronobacter-free • Top-class manufacturing facilities and practices • Strong continuous improvement policy
FUNCTIONAL	• High solubility • Low viscosity • 2 available particle sizes to adapt to infant formula density
SENSORY	• Limited sweetness accordingly to pediatricians recommendations on limiting sweet taste habituation during early life

Detailed recipe: LPNUIMF001

NUTRITION FACTS
Infant formula

per 100g of powder

Energy	491kcal
Fat	20.2g
Carbohydrate	66.7g
Of which sugars	39.3g
Fiber	0g
Protein	10.2g

Ingredients:
Skimmed milk, lactose, **GLUCIDEX® Premium 19 non-GMO corn maltodextrin**, whey protein isolate, canola oil, sunflower oil, soy lecithin.
