

PRESS RELEASE – FOR IMMEDIATE RELEASE

Roquette Isosorbide Achieves ISCC PLUS Certification

***La Madeleine, France — January 23, 2024 —* Roquette is proud to announce it successfully achieved International Sustainability and Carbon Certification (ISCC) PLUS for its isosorbide, produced in Lestrem, France. With this certification, Roquette reaffirms its commitment to sustainable practices along the value chain for its plant-based ingredient POLYSORB® isosorbide, available on the market for more than 10 years.**

Roquette announced today that it has earned the International Sustainability and Carbon Certification (ISCC) PLUS for POLYSORB® isosorbide and the following product grades: POLYSORB® PSA, POLYSORB® LP, POLYSORB® PA.

POLYSORB® isosorbide is a pioneering product that offers a versatile and eco-friendly alternative to traditional materials. As a 100% plant-based monomer, it helps to enhance the performance and minimize the environmental impact of materials used in packaging, plasticizers, polycarbonates, polyurethanes, and paints and coatings.

With the ISCC PLUS certification, Roquette reaffirms to its customers that they are using a product that meets the highest standards of sustainability and environmental responsibility.

International Sustainability and Carbon Certification (ISCC) PLUS is a voluntary scheme that applies to the bioeconomy and circular economy for food, feed, chemicals, plastics, packaging, textiles, and renewable feedstock derived from a process using renewable energy sources.

“This ISCC PLUS certification is a real milestone for Roquette and reaffirms our pledge to put sustainable development at the heart of all our activities providing our partners with innovative plant-based ingredients that meet the highest standards of sustainability and exceed their expectations in terms of performance,” says Pascal Leroy, Senior Vice President Core Ingredients of Roquette.

About Roquette: “Offering the Best of Nature”

Roquette is a family-owned global leader in plant-based ingredients and a leading provider of pharmaceutical excipients. Founded in 1933, the company currently operates in more than 100 countries, through more than 30 manufacturing sites, has a turnover of around 5 billion euros, and employs more than 10,000 people worldwide.

Life and nature have been our sources of inspiration for decades. All our raw materials are of natural origin. From them, we enable a whole new plant-based cuisine; we offer pharmaceutical solutions that play a key role in medical treatments; and we develop innovative ingredients for food, nutrition, and health markets. We truly unlock the potential of nature to improve, cure, and save lives.

Thanks to a constant drive for innovation and a long-term vision, we are committed to improving the well-being of people all over the world. We put sustainable development at the heart of our concerns while taking care of resources and territories. We are determined to create a better and healthier future for all generations.
