From feeding
to treating,
our solutions
are available for

And much more

Solutions
for the
**Plant Care
industry**

Make the natural choice:

Plant-based solutions for a sustainable development

Thanks to more than 80 years of experience in the starch industry, Roquette is able to provide its customers with state-of-the-art solutions that meet their needs.

Our application laboratories and our experts are at your service to offer you application advice and help with project implementation.

- > Are you looking for natural or biorenewable solutions?
- > Do you want biodegradable materials?
- > Do you need growth enhancers or carbohydrate sources?
- > Would you like to remove, reduce or control the release of toxic materials?

Thanks to our plant science knowledge, we are able to offer you efficient environmentally friendly solutions for your agrochemical formulations. Our wide range of products may help you in a variety of applications from system design (agglomeration, encapsulation,...) to nutritional solutions (growth factor, glucose intake,...).
